

We work with KigaRoo.

**Information for parents:
Benefits. Opportunities. Privacy Policy.**

KigaRoo.de

KigaRoo helps you communicate with the day care of your child.

What is KigaRoo?

KigaRoo will soon be introduced, here at our day care. It will provide a new platform through which parents can get all the important information about the care of their child in the future. Using KigaRoo will allow parents to contact us conveniently via the email smart phone app. Parents can login at the following address: www.kigaroo.de. More information can be found on the following pages.

What distinguishes KigaRoo - and what benefits you have as a result?

Safety

KigaRoo is safe. All data is encrypted using the most secure SSL protocol - the safety standards you are accustomed to online banking for example.

Comfort

KigaRoo KigaRoo can be accessed at any time and from anywhere. It is easy to use and the information is always up to date.

Communication

KigaRoo KigaRoo provides you with all the modern ways to share information with your pre-school. Parents have a protected login area and a Parents App for smartphones or it can be accessed via the web or email.

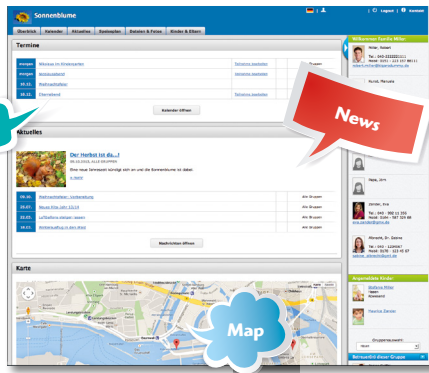

Free

KigaRoo is totally free for you! All you need is a computer with internet access or an Internet-enabled mobile phone (smartphone).

What are the features that KigaRoo provide to protect the parents area?

On the home screen, the parents area provides all the important information at a glance. They are able to see what projects and deadlines are pending and when the next party or excursion will be. With a click of a button on the "Open Calendar", parents will have access immediately to an overview of all up and coming dates. You can for example, with great ease, confirm your child's participation in an activity or group excursion. Our news updates will also arrive for you below.

Projects & Dates

News

Map

Should you agree to release your data, an easy to navigate map will give you access and show you the addresses of all the children in your child's group. Your own private address information is controlled by you; you have the choice to decide if you would like other parents to be able to view your personal details and address. On the right side, you will see and have access to all of your own personal data and well as your child's coach, course details and up and coming Birthdays.

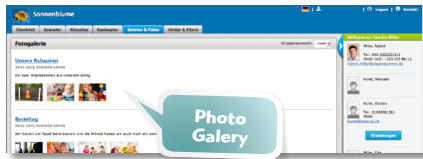

Photo Gallery

But of course that is not all! The photos of your child's last trip will also be available online. This will allow you easy access to show friends and family. It will also allow you to get in direct contact with parents of other children from the group of your child. The menu also allows you, at any time, to contact the Head of Department or your child's course leader and vice versa.

Kids & parents of your group

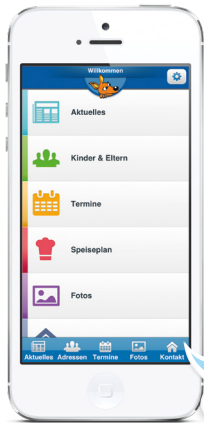

Meal Plans

Calendar

Try it out!

When KigaRoo is implemented all parents will be able to create a personal password. This protected password will give you instant access to all this information.

What are the features of KigaRoo on your smartphone?

News

After you have downloaded the app and logged in, the first page will give you an overview of all the available functions. From there you can jump, with the help of the six menu icons, directly to the main functions.

Ease of use

Direct communication

Addresses

Here you will find all the contact details for all the children from the group of your child (if enabled by the respective parents). This information will allow you to get in touch with other parents directly by phone or via email.

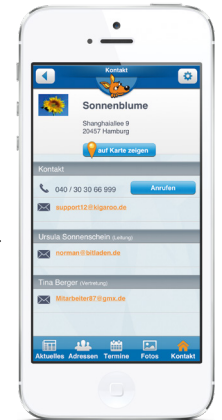

Photo's

Do you want quick access to an actual photo from your child's last trip? This feature will allow you to access instantly. With KigaRoo you can now (in your password protected area) have access to these photos from anywhere at any time.

Contact

In the contact area you will find, with one finger all of our information to contact us directly by phone or via email.

Information

The information page will contain all of the contact information for yourself and your child. This area will allow you to notify us of your child's vacation dates, of un-attendance due to sickness and probable absence of your child.

KigaRoo: That's Privacy! Made in Germany!

As secure as your online banking!

KigaRoo has placed the highest priority on the security of its site and your data. Therefore, all the data will be stored on servers located in Germany. Our servers will be monitored around the clock, this ensures they are secured at all times.

Your data, the servers and all content are protected by the most powerful firewalls and security SSL encryption. The KigaRoo website uses 128-bit SSL encryption. This security level encryption method is the same method used by banks. We treat all users data with strict confidentiality in accordance with the strict German Privacy Policy and of course guarantee not to pass on any data or information, to third parties.

Released by Evangelical Church in Baden-Württemberg

The Data Protection policy has been tested by the Evangelical Church in Baden - Württemberg. It was released to KigaRoo after a thorough examination for use. This was officially announced in August 2003 via circular 2/2013 of the Evangelical Association of day care facilities for children in Württemberg.

Supported by the Independent Centre for Privacy Protection Schleswig-Holstein

The ULD Kiel has awarded KigaRoo with the seal of approval. The seal given, by the national data protection laws in Germany, ensures the software has undergone and passed rigorous formal testing. The seal of approval certifies that KigaRoo is compliant with the rules on data protection and data security.

On this basis, the Independent Centre for Privacy Protection (ULD) recommends and endorses the use of KigaRoo, to the public authorities of the country. The certification requirements by the ULD were, from the beginning, the foundation for data protection in the development of KigaRoo software.

Additional security with key partners

Host Europe GmbH

With the Host Europe GmbH we know one of the leading partners in data security of Germany on our side. Whether in the field of building security, process certification, or increased data security through the use of BSI ISO standards. All necessary and responsible safety and quality certificates for Internet data centers are present. The server locations are particularly worth mentioning. These are located exclusively on German soil and are therefore subject in all respects to the Federal Data Protection Act (BDSG).

Try it !

1. KigaRoo gives you instant access to your Kindergarten (Day Care)
2. Simply login to www.kigaroo.de on the internet
3. Login through the password protected area...
... and there you go!
